

E-Learning and Disability in Higher Education Jane Seale, 2006-08-21 Providing a range of different practical and theoretical perspectives and summarising guidelines for best practice, this book considers the key concerns involved in the provision of e-learning for disabled students in Higher and Further Education.

Local Government Innovation Robin A. Johnson, Norman Walzer, 2000-09-30 Nationally recognized scholars and practitioners examine opportunities in which services traditionally provided by local governments are offered by the private sector through a contract or are transferred to a private business completely. Many large U.S. cities have contracted services for many years. With the movement to rightsize governments in recent years there has been renewed interest by local governments in similar ventures. Privatization, in its many forms, is now seen as a viable alternative to traditional ways of providing public services and can bring substantial benefits to residents. With greater accountability being demanded and pressures on local officials to hold the line on or reduce taxes, efforts to find innovative service delivery methods will probably increase. Cities, such as Atlanta, Indianapolis, and Charlotte, are examples showing that contracts with private businesses can work to benefit all parties. Local officials must move ahead cautiously, and not all attempts at privatization or contracting have succeeded. Some cities, after an evaluation, have decided to provide services with municipal employees. The main issues underlying privatization decisions will be addressed conceptually so that practitioners and academics benefit from a review of the current thinking on the issues. At the same time, exemplary practices and case studies are included so that readers can understand how privatization and managed competition have been implemented in local governments. Special attention is paid to administrative questions that may arise during the implementation process. For example, ways in which cities have worked with employees who fear displacement because of the privatization process are described. The book breaks new ground by including references to recent innovations in public-private partnerships and describing how privatization may evolve in the future.

Legal Architecture Linda Mulcahy, 2010-12-16 Legal Architecture addresses how the environment of the trial can be seen as a physical expression of our relationship with ideals of justice. It provides an alternative account of the trial, which charts the troubled history of notions of due process and participation. In contrast to visions of judicial space as neutral, Linda Mulcahy argues that understanding the factors that determine the internal design of the courthouse and courtroom are crucial to a broader and more nuanced understanding of the trial. Partitioning of the courtroom into zones and the restriction of movement within it are the result of turf wars about who can legitimately participate in the legal arena and call the judiciary to account. The gradual containment of the public, the increasing amount of space allocated to advocates, and the creation of dedicated space for journalists and the jury, all have complex histories that deserve attention. But these issues are not only of historical significance. Across jurisdictions, questions are now being asked about the internal configurations of the courthouse and courtroom, and whether standard designs meet the needs of modern participatory democracies: including questions about the presence and design of the modern dock; the ways in which new technologies threaten to change the dynamics of the trial and lead to the dematerialization of our primary site of adversarial practice; and the extent to which courthouses are designed in ways which realise their professed status as public spaces. This fascinating and original reflection on legal architecture will be of interest to socio-legal or critical scholars working in the field of legal geography, legal history, criminology, legal systems, legal method, evidence, human rights and architecture.

India's Great Power Politics Jo Inge Bekkevold, S. Kalyanaraman, 2020-12-22 This book examines India's foreign and defence policy changes in response to China's growing economic and military power and increased footprint across the Indo-Pacific. It further explores India's role in the rivalry between China and the United States. The book looks at the strategic importance of the Indian Ocean Region in the Indo-Pacific geopolitical landscape and how India is managing China's rise by combining economic cooperation with a wide set of balancing strategies. The authors in this book critically analyse the various tools of Indian foreign policy, including defence posture, security alignments, and soft power diplomacy, among others, and discuss the future trajectory of India's foreign policy and the factors which will determine the balance of power in the region and the potential risks involved. The book provides detailed insights into the multifaceted and complex relationship between India and China and will be of great interest to researchers and students of international relations, Asian studies, political science, and economics. It will also be useful for policymakers, journalists, and think tanks interested in the India-China relationship.

Contributes to the public policy debate concerning the securing of sufficient retirement funds Reflects the present discussions and disagreements about the most fundamental aspects of the employment relationship Organized into three sections, this volume focuses on ethical issues in pension plan structure, pension plan changes, and investing in pension plan funds Includes a thorough and orienting introduction to the subject

Investment Governance for Fiduciaries Michael E. Drew, Adam N. Walk, 2019-04-22 Governance is a word that is increasingly heard and read in modern times, be it corporate governance, global governance, or investment governance. Investment governance, the central concern of this modest volume, refers to the effective employment of resources—people, policies, processes, and systems—by an individual or governing body (the fiduciary or agent) seeking to fulfil their fiduciary duty to a principal (or beneficiary) in addressing an underlying investment challenge. Effective investment governance is an enabler of good stewardship, and for this reason it should, in our view, be of interest to all fiduciaries, no matter the size of the pool of assets or the nature of the beneficiaries. To emphasize the importance of effective investment governance and to demonstrate its flexibility across organization type, we consider our investment governance process within three contexts: defined contribution (DC) plans, defined benefit (DB) plans, and endowments and foundations (E&Fs). Since the financial crisis of 2007–2008, the financial sector's place in the economy and its methods and ethics have (rightly, in many cases) been under scrutiny. Coupled with this theme, the task of investment governance is of increasing importance due to the sheer weight of money, the retirement savings gap, demographic trends, regulation and activism, and rising standards of behavior based on higher expectations from those fiduciaries serve. These trends are at the same time related and self-reinforcing. Having explored the why of investment governance, we dedicate the remainder of the book to the question of how to bring it to bear as an essential component of good fiduciary practice. At this point, the reader might expect investment professionals to launch into a discussion about an investment process focused on the best way to capture returns. We resist this temptation. Instead, we contend that achieving outcomes on behalf of beneficiaries is as much about managing risks as it is about capturing returns—and we mean “risks” broadly construed, not just fluctuations in asset values.

Elise Boulding: A Pioneer in Peace Research, Peacemaking, Feminism, Future Studies and the Family J. Russell Boulding, 2016-11-02 This series of four volumes honors the lifetime achievements of the distinguished activist and scholar Elise Boulding (1920–2010) on the occasion of her 95th birthday. This first anthology documents the breadth of Elise Boulding's contributions to Peace Research, Peacemaking, Feminism, Future Studies, and Sociology

of the Family. Known as the “matriarch” of the twentieth century peace research movement, she made significant contributions in the fields of peace education, future studies, feminism, and sociology of the family, and as a prominent leader in the peace movement and the Society of Friends.

Milton Santos: A Pioneer in Critical Geography from the Global South Lucas Melgaço, Carolyn Prouse, 2017-05-08 For decades, Milton Santos (1926-2001) has been considered one of the most influential thinkers in Brazilian and Latin American social sciences and geography. Yet his writings, most of which have not been translated into English, are largely unknown to European and North American audiences. This book introduces English-speaking scholars to Professor Santos through critical engagement with his ideas and writings. The chapters presented here reveal the breadth and originality of his critical thought, as well as its ongoing importance to contemporary debates. The book features a biography of Santos and includes an annotated translation of one of his most-cited texts, *The Return of the Territory*, offered here for the first time in English. This text demonstrates how Santos’s provocative insights continue to transform core concepts of political and human geography. The book also includes a number of short chapters written by scholars from Brazil, Spain and France. Through reflections on Santos’s work, the various authors demonstrate the value and possibilities of extending the geographer’s theories. They explore key geographical themes across political economy, rural studies, territorial planning, environmental crisis, digital networks, indigenous peoples, transportation and public health. This collection invites geographers from around the world to engage with this rich intellectual tradition from Brazil.

Nico Stehr: Pioneer in the Theory of Society and Knowledge Marian T. Adolf, 2018-05-14 This unique volume brings together a selection of the most important texts of Nico Stehr for the first time and puts them in dialogue with original research that draws on his prolific work. Covering five decades of pioneering sociological research on the theory of society and knowledge, the book introduces the reader to Stehr’s seminal inquiries into the economic, political and social role of knowledge. Original concepts, such as his groundbreaking studies on the Knowledge Society, are introduced as the volume traces Stehr’s pursuit of social scientific research as a source of practical knowledge for modern society. The book comprises three parts devoted to the many facets and the remarkable range of Nico Stehr’s oeuvre. Part 1 provides an introduction to the significance of his pioneering work and career. Part 2 demonstrates the practical application of Nico Stehr’s research as seen through the eyes of eminent scholars. Part 3 presents a selection of the milestones of his publications.

Herbert C. Kelman: A Pioneer in the Social Psychology of Conflict Analysis and Resolution Herbert C. Kelman, Ronald J. Fisher, 2017-01-18 This edited volume presents selected papers capturing Herbert Kelman’s unique and seminal contributions to the social psychology of conflict analysis and resolution, with a special emphasis on the utility of concepts for understanding and constructively addressing violent and intractable conflicts. Central concepts covered include perceptual processes, basic human needs, group and normative processes, social identity, and intergroup trust, which form the basis for developing interactive methods of conflict resolution.

Alexander L. George: A Pioneer in Political and Social Sciences Dan Caldwell, 2018-07-20 Alexander L. George was one of the most productive and respected political scientists of the late twentieth century. He and his wife, Juliette George, wrote one of the first psychobiographies, and Professor George went on to write seminal articles and books focusing on political psychology, the operational code, foreign policy decisionmaking, case study methodology, deterrence, coercive diplomacy, policy legitimacy, and bridging the gap between the academic and policymaking communities. This book is the first and only one to contain examples of the works across these fields written by Alexander George and several of his collaborators. • This is a collection of Alexander L. George’s works from the major fields to which he contributed. • There are biographical essays by his wife and co-author (Juliette L. George), daughter (Mary George Douglass), former student (Dan Caldwell), and professional colleague (Janice Gross Stein). • There are 25 photographs of Alexander L. George and his family which have not previously been published.

Elise Boulding: Writings on Feminism, the Family and Quakerism J. Russell Boulding, 2016-11-04 This volume honors the lifetime achievements of the distinguished activist and scholar Elise Boulding (1920-2010) on the occasion of her 95th birthday. Known as the “matriarch” of the twentieth century peace research movement, she made significant contributions in the fields of peace education, future studies, feminism, and sociology of the family, and as a prominent leader in the peace movement and the Society of Friends. She taught at the University of Colorado, Boulder from 1967 to 1978 and at Dartmouth College from 1978 to 1985, and was instrumental in the development of peace studies programs at both institutions. She was a co-founder of the International Peace Research Association (1964), the Consortium on Peace Research Education and Development (1970), and various peace and women’s issues-related committees and working groups of the American Sociological Association and International Sociological Association.

Richard Ned Lebow: Major Texts on Methods and Philosophy of Science Richard Ned Lebow, 2016-09-01 This book about the philosophy of science is the second out of four volumes by Richard Ned Lebow in this book series. It not only provides a useful overview of this broad topic, but also provides deeper insight into specific topics like the philosophy of science causation, epistemology and methods, and especially on counterfactual analysis.

Ronald J. Fisher: A North American Pioneer in Interactive Conflict Resolution Ronald J. Fisher, 2016-12-03 This edited volume presents selected papers focusing on Ronald Fisher’s cumulative contributions to understanding destructive intergroup conflicts from a social-psychological perspective, and to the development and assessment of small group, interactive methods for resolving them. Highlights include schematic models of third party consultations, intergroup conflicts, and a contingency approach to third party intervention. Overall, the selected texts offer a comprehensive description and clear rationale for interactive conflict resolution and its unique contributions to peacemaking.

Jane Addams: Progressive Pioneer of Peace, Philosophy, Sociology, Social Work and Public Administration Patricia Shields, 2017-01-19 This book examines the life and works of Jane Addams who was awarded the Nobel Peace Prize (1931). Addams led an international women’s peace movement and is noted for spearheading a first-of-its-kind international conference of women at The Hague during World War I. She helped to found the Women’s International League of Peace and Freedom. She was also a prophetic peace theorist whose ideas were dismissed by her contemporaries. Her critics conflated her activism and ideas with attempts to undermine the war effort. Perhaps more important, her credibility was challenged by sexist views characterizing her as a “silly” old woman. Her omission as a pioneering, feminist, peace theorist is a contemporary problem. This book recovers and reintegrates Addams and her concept of “positive peace,” which has relevancy for UN peacekeeping operations and community policing. Addams began her public life as a leader of the U.S. progressive era (1890 – 1920) social reform movement. She combined theory and action through her settlement work in the, often contentious, immigrant communities of Chicago. These experiences were the springboard for her innovative theories of democracy and peace, which she advanced through extensive public speaking engagements, 11 books and hundreds of articles. While this

book focuses on Addams as peace theorist and activist it also shows how her eclectic interests and feminine standpoint led to pioneering efforts in American pragmatism, sociology, public administration and social work. Each field, which traces its origin to this period, is actively recovering Addams’ contributions.
