Japanese Americans at Heart Mountain Saara Kekki, 2022-07 On August 8, 1942, 302 people arrived by train at Vocation, Wyoming, to become the first Japanese American residents of what the U.S. government called the Relocation Center at Heart Mountain. In the following weeks and months, they would be joined by some 10,000 of the more than 120,000 people of Japanese descent, two-thirds of them U.S. citizens, incarcerated as “domestic enemy aliens” during World War II. Heart Mountain became a town with workplaces, social groups, and political alliances—in short, networks. These networks are the focus of Saara Kekki’s Japanese Americans at Heart Mountain. Interconnections between people are the foundation of human societies. Exploring the creation of networks at Heart Mountain, as well as movement to and from the camp between 1942 and 1945, this book offers an unusually detailed look at the formation of a society within the incarcerated community, specifically the manifestation of power, agency, and resistance. Kekki constructs a dynamic network model of all of Heart Mountain’s residents and their interconnections—family, political, employment, social, and geospatial networks—using historical “big data” drawn from the War Relocation Authority and narrative sources, including the camp newspaper Heart Mountain Sentinel. For all the inmates, life inevitably went on: people married, had children, worked, and engaged in politics. Because of the duration of the incarceration, many became institutionalized and unwilling to leave the camps when the time came. Yet most individuals, Kekki finds, took charge of their own destinies despite the injustice and looked forward to the day when Heart Mountain was behind them. Especially timely in its implications for debates over immigration and assimilation,

Japanese Americans at Heart Mountain presents a remarkable opportunity to reconstruct a community created under duress within the larger American society, and to gain new insight into an American experience largely lost to official history.

*Gender- und Diversity-Management* Sandra Struthmann, 2013-05-27 Sandra Struthmann untersucht Gender- und Diversity-Management als Strategie zur Gewinnung exzellenter Frauen als Fach- und Führungskräfte für mittelständische Unternehmen und daraus resultierende, erfolgversprechende Maßnahmen zur Flankierung weiblicher Berufs- und Karrierewege in unternehmerischen Kontexten. Auf der Basis der empirischen Untersuchung des gleichstellungspolitischen Status quo von 20 Unternehmen mit ausgewiesenem Fach- und Führungskräftebedarf aus den MINT-Branchen werden Best-Practice-Beispiele der Organisations-, Personal- und Potenzialentwicklung generiert und implementiert, um qualifizierten Frauen den Zugang zu Fach- und Führungspositionen zu ermöglichen. Die für jedes der 20 Unternehmen individuell formulierten Maßnahmenkataloge des Gender- und Diversity-Managements werden dabei wirksam in der organisationalen Dimension (in Form von exkludierenden Strukturen und Kulturen aufbrechenden Rahmenbedingungen), in der interaktionalen Dimension (durch an den Prämissen von Chancengleichheit orientierte Kommunikations- und Interaktionsstrategien) und in der individuellen Dimension (durch die gezielte Förderung und Flankierung weiblicher Fähigkeiten und Potenziale).

**Democratisation, Governance and Regionalism in East and Southeast Asia** Ian Marsh, 2006-09-27 This new collection of essays compares the development of central institutions of governance in the emerging democracies of East and South East Asia. Seven key countries are covered: Taiwan, Korea, Thailand, Singapore, Malaysia, Indonesia and the Philippines. Save for Singapore and Malaysia, all have democratized over the past decade. Because of its constitutive implications for citizen identities, democratization is arguably of even greater potential significance than the economic take-off that preceded it. But there are distinctive features that give the experience of these seven states especial relevance. First, unlike analogous western patterns, democratic transitions in Asia have been top-down in character. Second, the implementation of basic democratic forms was highly compressed in time. Third there were (and are), in most countries, no major ideological or programmatic cleavages. Thus the bases around which contending political forces might organize are not immediately clear. This may affect the outlook for partisanship and mobilization. There has been no synoptic, comparative study of these developments on a region-wide scale. This book fills the gap extremely well.

**Comparative Regionalism** Fred H. Lawson, 2017-03-02 Regionalism has regained momentum in the post-Cold War era. New economic groupings continue to spring up across the globe, while older regional organizations have strengthened their institutional bases and broadened their scope. Explaining the reinvigoration of regionalism requires comparative analyses that not only highlight the commonalities that characterize various regional experiments but also account for the differential outcomes and divergent trajectories such projects exhibit. This collection of seminal

articles on regionalism advances theoretical concepts that can stimulate useful comparisons, along with scholarly surveys of important instances of regionalism in the contemporary world. Besides classic studies of the European Union, the volume includes authoritative overviews and case studies of regionalist projects in East Asia, Sub-Saharan Africa, Latin America, the Middle East and Central Eurasia. An introductory essay situates these articles in the context of the five decade-long research program on regional integration theory.
