**Verified Synthesis of Zeolitic Materials** H. Robson,2001-06-26 Zeolite synthesis is an active field of research. As long as this continues, new phases will be discovered and new techniques for preparing existing phases will appear. This edition of Verified Synthesis of Zeolitic Materials contains all the recipes from the first edition plus 24 new recipes. Five new introductory articles have been included plus those from the first edition, some of which have been substantially revised. The XRD patterns have been recorded using different instrument settings from those in the first edition and are intended to conform to typical X-ray diffraction practice. In most cases, only the XRD pattern for the product as synthesised is printed here. The exceptions are those phases which show marked changes in the XRD pattern upon calcination.

**State of the Young Child in India** Mobile Creches,2020-02-24 This Report is one of the first comprehensive studies on young children in India. It focuses on children under 6 years of age and presents key aspects of their well-being and development. With the highest number of neonatal, infant and under-5 deaths in the world, there is an urgent need to address issues that continue to affect the young child in India. This volume: Introduces two young child indices aggregating selected indicators to separately track child outcomes and child circumstances. Provides an account of the current situation of the young child in terms of physical and cognitive development, access to care, disadvantaged children and major issues that have led to the continued neglect of this age group. Explores the policy and legal framework, fiscal space and the role and obligations of key stakeholders, including the state, private sector, civil society, media and the family. Highlights key recommendations and action points that can help to improve the ecosystem for early childhood care and development. Drawing on specially commissioned technical background papers, supplemented by extensive field experience of Mobile Creches in childcare, this Report will be of interest to practitioners, policymakers and influencers, think tanks and researchers of public policy, development studies, human rights, sociology and social anthropology, as well as general readers. **Accessible EPUB 3** Matt Garrish,2012-02-10 Although the digital revolution has made content available to more people than print books ever could, ebooks are still only as accessible as the foundation they're built on—and all too often the foundation is weak. But that's changing. With the introduction of EPUB 3, publishers now have the means to create a single rich data source for audiences of all reading abilities. Through practical tips and examples, Accessible EPUB 3 takes you inside the EPUB 3 format and explores how you can enrich and enhance content for all readers. Author Matt Garrish demystifies the process of making content easier to access, demonstrating how accessible practices are intertwined with standard content best practices. Among many techniques, this guide will teach you how to: Add structure and meaning to your publications to make them more usable by accessible technologies Tailor EPUB Navigation Documents for readers requiring either full or reduced navigation Create media overlays to synchronize human narration with text display Improve text-to-speech playback by adding SSML, PLS lexicons, and CSS3 Speech functionality

**Supporting Users in Password Authentication with Persuasive Design** Tobias Seitz,2018-08-03 Activities like text-editing, watching movies, or managing personal finances are all accomplished with web-based solutions nowadays. The providers need to ensure security and privacy of user data. To that end, passwords are still the most common authentication method on the web. They are inexpensive and easy to implement. Users are largely accustomed to this kind of authentication but passwords represent a considerable nuisance, because they are tedious to create, remember, and maintain. In many cases, usability issues turn into security problems, because users try to work around the challenges and create easily predictable credentials. Often, they reuse their passwords for many purposes, which aggravates the risk of identity theft. There have been numerous attempts to remove the root of the problem and replace passwords, e.g., through biometrics. However, no other authentication strategy can fully replace them, so

passwords will probably stay a go-to authentication method for the foreseeable future. Researchers and practitioners have thus aimed to improve users' situation in various ways. There are two main lines of research on helping users create both usable and secure passwords. On the one hand, password policies have a notable impact on password practices, because they enforce certain characteristics. However, enforcement reduces users' autonomy and often causes frustration if the requirements are poorly communicated or overly complex. On the other hand, user-centered designs have been proposed: Assistance and persuasion are typically more user-friendly but their influence is often limited. In this thesis, we explore potential reasons for the inefficacy of certain persuasion strategies. From the gained knowledge, we derive novel persuasive design elements to support users in password authentication. The exploration of contextual factors in password practices is based on four projects that reveal both psychological aspects and real-world constraints. Here, we investigate how mental models of password strength and password managers can provide important pointers towards the design of persuasive interventions. Moreover, the associations between personality traits and password practices are evaluated in three user studies. A meticulous audit of real-world password policies shows the constraints for selection and reuse practices. Based on the review of context factors, we then extend the design space of persuasive password support with three projects. We first depict the explicit and implicit user needs in password support. Second, we craft and evaluate a choice architecture that illustrates how a phenomenon from marketing psychology can provide new insights into the design of nudging strategies. Third, we tried to empower users to create memorable passwords with emojis. The results show the challenges and potentials of emoji-passwords on different platforms. Finally, the thesis presents a framework for the persuasive design of password support. It aims to structure the required activities during the entire process. This enables researchers and practitioners to craft novel systems that go beyond traditional paradigms, which is illustrated by a design exercise.

**Collaborative Product and Service Life Cycle Management for a Sustainable World** Richard Curran, Shuo-Yan Chou, Amy J. C. Trappey, 2008-08-31 “Collaborative Product and Service Life Cycle Management for a Sustainable World” gathers together papers from the 15th ISPE International Conference on Concurrent Engineering (CE2008), to stimulate the new thinking that is so crucial to our sustained productivity enhancement and quality of life. It is already evident in this new century that the desire for sustainable development is increasingly driving the market to reach for new and innovative solutions that more effectively utilize the resources we have inherited from previous generations; with the obvious responsibility to future generations. Human productivity and progress can be positively engineered and managed in harmony with the provision and needs of our natural environment. One century on from the industrial revolution, this is now the time of the sustainable revolution; requiring holistic technological, process and people integrated solutions to sustained socio-economic enhancement.

*Constructal Theory of Social Dynamics* Adrian Bejan, Gilbert W. Merks, 2007-10-26 Constructal Theory of Social Dynamics brings together for the first time social scientists and engineers who present predictive theory of social organization, as a conglomerate of mating flows that morph in time to flow more easily. The book offers a new way to look at social phenomena as part of natural phenomena, and examines a new domain of application of engineering such as thermodynamic optimization, thermoeconomics and design as science.

**Structural Glass** Peter Rice, Hugh Dutton, 1995 This book is published in English for the first time. The first edition in French sold extremely well and this second edition has the added benefit of an 8 page colour section and nine new case studies not only from France but from Norway, London.

*Strategic IT Accessibility* Jeff Kline, 2020-01-31 This strategic guide to understanding, enabling, and implementing information technology accessibility across organizations of any size, type, or geographic location, is an essential resource for technology professionals and executives. IT accessibility, or the lack thereof, can have a profoundly positive or negative effect on an organization in the private or public sector. Only when IT accessibility is considered organization-wide can one gain an appreciation for its potential advantages. Drawing on his decades of experience in IT

accessibility leadership at IBM and in state government, Jeff Kline clearly articulates how to: - build and maintain holistic organization-wide IT accessibility programs that integrates IT accessibility into the fabric of your organization's business, operations, and culture; - make your organization's IT offerings and internal IT environments accessible and inclusive to all audiences;

**Eco-Art Therapy in Practice** Amanda Alders Pike, 2021-03-21 Eco-Art Therapy in Practice is uplifting, optimistic, and empowering while outlining cost-effective, time efficient, and research-based steps on how to use nature in session to enhance client engagement and outcomes. Dr. Pike employs her background and credentials as a certified educational leader and board-certified art therapist to walk readers through establishing ecologically-based practices— such as growing art materials using hydroponics regardless of facility constraints. Each chapter is aligned with the continuing education requirements for art therapy board certification renewal to make its relevance clear and to orient the book for future training program integration. Appendices feature clinical directives in easy-to-follow, one-page protocols which encourage readers to consider client needs when applying methods, along with intake forms to bolster real-world application. This text will help clinicians and educators to employ eco-art therapy in practice, in turn empowering their clients and conveying an inclusive message of respect— respect for self, others, community, and the world.

**Animism in Art and Performance** Christopher Braddock, 2017-11-27 This book explores Māori indigenous and non-indigenous scholarship corresponding with the term 'animism'. In addressing visual, media and performance art, it explores the dualisms of people and things, as well as 'who' or 'what' is credited with 'animacy'. It comprises a diverse array of essays divided into four sections: Indigenous Animacies, Atmospheric Animations, Animacy Hierarchies and Sensational Animisms. Cassandra Barnett discusses artists Terri Te Tau and Bridget Reweti and how personhood and hau (life breath) traverse art-taonga. Artist Natalie Robertson addresses kōrero (talk) with ancestors through photography. Janine Randerson and sound artist Rachel Shearer consider the sun as animate with mauri (life force), while Anna Gibb explores life in the algorithm. Rebecca Schneider and Amelia Jones discuss animacy in queered and raced formations. Stephen Zepke explores Deleuze and Guattari's animist hylozoism and Amelia Barikin examines a mineral ontology of art. This book will appeal to readers interested in indigenous and non-indigenous entanglements and those who seek different approaches to new materialism, the post-human and the anthropocene.

**Molecular Imaging: Computer Reconstruction and Practice** Yves Lemoigne, Alessandra Caner, 2008-09-02 This book reports the majority of lectures given during the NATO Advanced Study Institute ASI-982440, which was held at the European Scientific Institute of Archamps (ESI, Archamps - France) from November 9 to November 21, 2006. The ASI course was structured in two parts, the first was dedicated to individual imaging techniques while the second is the object of this volume and focused on data modelling and processing and on image archiving and distribution. Courses devoted to nuclear medicine and digital imaging techniques are collected in a complementary volume of NATO Science Series entitled "Physics for Medical Imaging Applications" (ISBN 978-1-4020-5650-5). Every year in autumn ESI organises the European School of Medical Physics, which covers a large spectrum of topics ranging from Medical Imaging to Radiotherapy, over a period of five weeks. Thanks to the Cooperative Science and Technology sub-programme of the NATO Science Division, weeks two and three were replaced this year by the ASI course dedicated to "Molecular Imaging from Physical Principles to Computer Reconstruction and Practice". This allowed the participation of experts and students from 20 different countries, with diverse cultural background and professional experience (Africa, America, Asia, and Europe). A further positive outcome of NATO ASI participation is the publication of this book, which contains the lectures series contributed by speakers during the second week of the ASI.

**Diabetes Mellitus in Developing Countries and Underserved Communities** Sam Dagogo-Jack, 2016-11-23 Adopting a truly global perspective and a practical approach to diabetes—including pathophysiology, genetics, regional peculiarities, management, prevention and best practices—this book is an excellent resource for clinicians and policy-makers working with patients in more austere settings. The global prevalence of diabetes is estimated to increase from 422 million in 2014 to 592 million in 2035. Sadly, low- and middle-economy countries are projected to experience the steepest increase, but even in developed economies, vulnerable demographic subgroups manifest disparities in diabetes prevalence, quality of care, and outcomes. This book extends coverage to those underserved and minority communities in the developed world. In a consistent chapter format, it discusses classification, pathophysiology, genomics, diagnosis, prevention and management of diabetes in economically challenged regions as well as underserved populations in affluent nations. Suggestions regarding future directions in the organization of diabetes care delivery, prevention and research priorities are also provided. The detailed identification of barriers to optimal care and the practical approach to the management and prevention of diabetes make Diabetes Mellitus in Developing Countries and Underserved Communities a valuable resource for clinicians, researchers and health policy leaders.

**Atlas of Zeolite Framework Types** Ch. Baerlocher, Lynne B. McCusker, D.H. Olson, 2007-09-12 Zeolite scientists, whether they are working in synthesis, catalysis, characterization or application development, use the Atlas of Zeolite Framework Types as a reference. It describes the main features of all of the confirmed zeolite framework structures, and gives references to the relevant primary structural literature. Since the last edition 34 more framework types have been approved and are described in this new edition. A further new feature will be that characteristic building units will be listed for each of the framework types. Zeolites and their analogs are used as desiccants, as water softeners, as shape-selective acid catalysts, as molecular sieves, as concentrators of radioactive isotopes, as blood clotting agents, and even as additives to animal feeds. Recently, their suitability as hosts for nanometer spacing of atomic clusters has also been demonstrated. These diverse applications are a reflection of the fascinating structures of these microporous materials. Each time a new zeolite framework structure is reported, it is examined by the Structure Commission of the International Zeolite Association (IZA-SC), and if it is found to be unique and to conform to the IZA-SC's definition of a zeolite, it is assigned a 3-letter framework type code. This code is part of the official IUPAC nomenclature for microporous materials. The Atlas of Zeolite Framework Types is essentially a compilation of data for each of these confirmed framework types. These data include a stereo drawing showing the framework connectivity, features that characterize the idealized framework structure, a list of materials with this framework type, information on the type material that was used to establish the framework type, and stereo drawings of the pore openings of the type material. \* Clear stereo drawings of each of the framework types \* Description of the features of the framework type, allowing readers to quickly see if the framework type is suitable to their needs \* References to isotopic materials, readers can quickly identify related materials and consult the appropriate reference
